EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech.	Jabalpur Engineering College, Jabalpur	7.87 (Current)	2022-Present
Senior Secondary	CBSE Board	85.0%	2022
Secondary	CBSE Board	87.4	2020

PROJECTS

- MyAiTools** Aug 2025
AI-Powered SaaS Platform Github
 - Developed a full-stack SaaS platform using PERN Stack and TailwindCSS providing AI-powered tools for content generation, image processing, and productivity.
 - Integrated Clerk for authentication & billing, enabling secure subscriptions and payment handling.
 - Leveraged HuggingFace FLUX.1-schnell for AI image generation, Tesseract.js for OCR, and YouTube Data API V3 for video summarization with chat support.
 - Implemented background/object removal, image compression & resizing using Cloudinary and Sharp, along with features like resume review, QR code generation, and community section.
- Development of an online examination platform QuizJEC for Jabalpur Engineering College** Jan. 2025 - Apr. 2025
Prof. Madhuri Gokhale Demonstration
 - Built using MERN Stack + ElectronJS, QuizJec is a full-featured exam simulator inspired by JEE/GATE, featuring dedicated portals for Teachers and Students in a cross-platform desktop environment.
 - Integrated native C++ anti-cheat engine to detect tab-switching, shortcut usage, and force quits, ensuring secure and fair exam attempts.
 - Enabled CRUD-based exam creation with real-time question saving, auto-submission on timeout, and instant result generation (batch-wise for teachers).
 - Developed a secure backend using Node.js, Express.js, MongoDB, REST APIs with JWT authentication, bcrypt password hashing, and Zod for input validation.
 - Distributed as a one-click installable '.exe' desktop app via ElectronJS, requiring no system-level setup or technical configuration.
- Prescripto** Feb. 2025
Doctor Appointment Platform Github
 - Built a role-based healthcare platform using MERN Stack and TailwindCSS with separate dashboards for Patients, Doctors and Admins.
 - Created REST APIs with Express.js secured with JWT and bcrypt, integrated Cloudinary for media and Razor-pay/Stripe for payments.
 - Patient module supports doctor discovery, booking and profile management while doctors manage availability and earnings and admins handle onboarding and analytics.

TECHNICAL SKILLS

- Programming Languages:** C, Java, JavaScript, TypeScript
- Web Technologies:** HTML, CSS, JQuery, EJS, React.js, Next.js, Recoil, Node.js, Express.js
- Databases:** MongoDB, PostgreSQL, Firebase, SQL, NoSQL
- ORMs & Tools:** Prisma ORM, Eclipse, Git, GitHub, VS Code, Android Studio, Postman

KEY COURSES TAKEN

- Data Structures and Algorithms:** GeeksForGeeks
- Core Courses:** Operating System, Object Oriented Programming (OOPs), Database Management Systems (DBMS), Computer Networks(CN)

POSITIONS OF RESPONSIBILITY

- Junior Under Officer,** Earned the NCC 'C' Certificate, showcasing leadership, management, and communication skills.
- Core Team Member, GDSC JEC (Android),** Contributed to app development and organized workshops.

ACHIEVEMENTS

- Hackathon,** Finalist in the college-level Smart India Hackathon 2024 for *CareConnect, a healthcare-oriented website.*
