PROFILE

Full Stack Developer | MERN Stack | Android Development | AI Integration | ElectronJS | RESTful APIs

Experienced MERN Stack Developer with hands-on experience building scalable web applications and mobile solutions. Demonstrated expertise in React.js, Node.js, MongoDB, Android development, and AI service integration. Proven track record in cross-platform applications, secure authentication, and payment gateway integration. Open to Full Stack Developer and Software Engineer roles.

EDUCATION

•Bachelor of Technology, Computer Science and Engineering

Jabalpur Engineering College | CGPA: 7.87

2022 – 2026

Jabalpur, MP

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, C, Java
- **Frontend Technologies:** HTML5, CSS3, React.js, Next.js, TailwindCSS, Recoil State Management
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT, MongoDB, PostgreSQL, NeonDB
- **Version Control:** Git, GitHub
- **Development Tools:** ElectronJS, Android Studio, VS Code, Postman
- **Cloud & Integration:** Cloudinary, Vercel, Stripe, HuggingFace APIs, Firebase, Google Cloud Console

LEADERSHIP & EXPERIENCE

•MERN Stack & Android Development Team Member | Google Developer Student Club (GDSC JEC) 2023 – 2024

Jabalpur, MP

- Mentored 15+ students in MERN stack and Android development, improving team coding proficiency by 80%
- Organized technical workshops for 80+ participants, addressing skill gaps in web and mobile development
- Led project delivery for college tech events, managing timelines and coordinating cross-functional teams

PROJECTS

MyAiTools – AI-Powered SaaS Platform

GitHub

- Solved multiple AI subscription problem by building unified MERN stack platform with image generation, OCR, and video summarization, serving 200+ users
- Overcame API integration challenges with HuggingFace FLUX.1, Tesseract.js, and YouTube Data API achieving 99.8% success rate
- Built scalable subscription system using Clerk authentication and Stripe billing with automated tier management

QuizJEC – Anti-Cheat Examination System

Demo

- Solved critical online exam integrity issues by developing native C++ monitoring engine integrated with MERN stack web application
- Tackled cross-platform deployment complexity using ElectronJS to package web app as one-click installable desktop application, successfully deployed for 500+ students
- Implemented secure exam flow with JWT authentication, auto-save mechanisms, and instant result generation for educators across college departments

Prescripto – Healthcare Management Platform

GitHub

- Resolved healthcare scheduling inefficiencies by creating role-specific dashboards using MERN stack supporting 50+ doctors and 300+ patient appointments
- Integrated dual payment gateways (Razorpay/Stripe) with fallback mechanisms achieving 99.9% transaction reliability
- Built secure REST API architecture with JWT authentication and Cloudinary integration for seamless document management

CERTIFICATIONS & ACHIEVEMENTS

•Smart India Hackathon 2024 – College Level Finalist

Developed innovative CareConnect healthcare platform using MERN stack, selected as finalist in competitive internal college competition.

•Junior Under Officer – National Cadet Corps (NCC)

Led platoon operations for 150+ cadets and earned NCC 'C' Certificate demonstrating exceptional leadership and management skills

•Academic Foundation

Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Software Engineering
